Copy of War Office letter No. 13 General 8752 (Q M.G.-2), dated the 3rd May 1933.

'With reference to the King's Regulations, paras, 1506 and 1510 (b), I am directed to inform you that it has been represented that in some cases where a soldier has been granted furlough on compassionate grounds or otherwise without entitlement to possage at the public expense, in circumstances which require him to proceed home by the earliest possible opportunity, his satting has been delayed until passage by a vessel carrying third class passengers becomes available, or alternatively, the soldier has been forced to incur the expuse of a passage at second class rates.

I am to say that this matter has been aubmitted by the Director of Sea Transport, Board of Tride, to the P. & O. and B. I. S. N. Companies, who have now agreed in the abovementioned circumstances to allow soldiers and their families to travel second class at 31 of the second class rate from the stations served by them (as set out below) when there is no third class or tourist steamer available, provided—

- (a) that full fare-paying passengers are not thereby shut out, and
- (b) that application for pessage is made by the soldier's Commanding Officer or Officer-in-charge, Records, or by other responsible officer, and the fare prepaid.

The B. I. S. N. Compun further stipulate that the concession shall be limited to sailings from England between 1st February and 1st August, and to sailings from the Eastern port of departure between the 1st August and 1st February. They would not however unreasonably deny the concession outside these periods provided the accommodation could not be sold to ordinary passengers.

The officers referred to at (b) above will pay the Shipping Companies' agents direct, and no charge must appear in the public accounts.

The stations served by the Companies' steamers with 2nd class accommodation are as follows:—

P. & O. S. N. Co.

B. I. S. N. Co.

Gibraltar. Malta Bombay, Colombo, Port Said. Port Sudan.

Port Said

Furlough rates in 2nd Class at 3|4 2nd Class rate already apply on P. & O steamers from Gibraltar and Malta, and on both Companies' Steamers from Port Said.

### PART II.

### INVALIDING-BRITISH PERSONNEL

A copy of these trooping rules will be placed before all Medical Boards on proposed invalids.

57. Three regular invaliding medical hoards will be held not later than 15th August, 15th October and 15th December, respectively. In Burma they will be held not later than 1st August, 1st October and 1st December.

Emergency boards will be held as required, but ordinarily all classes of invaliding should have been foreseen and documents should have reached Army Headquarters by 10th February, on which date final berthing arrangements for remaining transports are normally made

- 58. The documents of invalids will be forwarded through the usual channels so as to reach Army Headquarters not later than a fortnight after the date on which the board is held, or earlier if possible.
- 59. When any patient is invalided by a medical board held after 1st Pebruary, the finding will be reported by uire to the D. M. S. and repeated to Q. M. G. by the O. C. hospital, giving full particulars as in para. 64 below, the doc means of such cases will be forwarded immediately through the usual channels so as to reach Army Headquarters within 10 days of helding the board.
- 60. To avoid congestion at the end of the trooping season it is essential to bring before a medical board as many proposed invalids as possible in August and October. Any attempt to take account of climatic conditions with regard to the type of cases and the season of the year in England has been found to be valueless, the advantages being outweighed by the disadvantages. It should be clearly understood that, though a given case disadvantages. It should be clearly understood that, though a given each might preferably arrive in England in the spring, the individual must give might preferably arrive in England in the spring, the individual must give place to the general welfare. Keeping the bulk of the cases until the December board defeats its own objects, and causes congestion and hard-ship.

- 61. Classification of invalids.—Invalids will be classified by medical boards as either:—
  - "A"-requiring hospital accommodation, or
  - "B"-not requiring hospital accommodation.

The following will always be classified as "Class A ":--

- (a) mental cases,
- (b) cases of pulmonary tuberculosis,
- (c) men with disabilities of arm or leg which disable them from fetching their own hammocks, slinging them to the deek above, getting into and out of them, and putting them away in the morning, which duties are incumbent on "Class B" caves.

This original classification is not necessarily final, as the condition of a perient may materially alter after his board has been held, in which case reclassification from "A" to "B", or rice versa, will be made by the O. C. hospilal concerned, a notification being sent immediately to the D. M. S. in India by telegram repeated to Q. M. G. in India, and if passage has already been allotted the telegram will also be repeated to the Embarkation Commundant and to the O. C. B. M. H. at the port concerned.

Note.—Medical Boards may be inclined to think that by labelling a mecssarily the case, and may have the opposite effect. Accommodation for "Class A" invalids is always limited, that for "Class B" invalids is always limited, that for "Class B" invalids as a rule, ample; therefore an excess of "Class A" invalids may mean that the invalids so classified have to be kept back, although they might have travelled in comfort, and without detriment to their condition as "Class B" invalids.

The words "Class A" or "Class B" will in all cases be entered in large red letters on the upper right hand corner of the front page of the Board proceedings.

- In the case of 1st and 2nd class invalids who are classified as "Class A", madreal boards will state in the proceedings whether ordinary accommodation is suitable or whether hospital accommodation is essential. They will also state whether or not separate accommodation is required.
- 62. The rules in Passage Regulations, India, governing the grant of invalid passages have been tabuloted for easy reference and will be found in Appendix "E" to these instructions.
- 63. Passages in packet vessels.—These are governed by Passage Regulations, India, paras 31, 187, 202 (a), 235, 241 (k) and 262 (j).

Owing to the particular difficulty in securing passages by packet vessels between February and April, there is danger of late applicants having to wait until June.

Further, packet vessels are in many cases less suitable for carrying invalids than troopships are. This specially applies to cases requiring attendance, special treatment, etc., and will be taken into consideration by neclical boards before recommending passages in packet vessels.

There is great difficulty in arranging packet passages for mental and for infectious (especially tubercular) cases, owing to the disinclination of shipping companies to accept such patients as passengers, and the lack of suitable accommodation and attendants. These patients therefore will whenever possible travel by transport.

In all cases where the question of infection or contagion arises, the O. C. haspital concerned will, at the time of making an application for a packet

Regimental documents will be disposed of in the usual manner, vide para. 69,

Documents of mental cases who have been boarded during the nontrooping season and have been transferred to a mental hospital to await embarkation, will be dealt with as follows:—

Medical documents as detailed in (b) above will be retained in the mulitary hospital at which the medical board has been held and will be forwarded to the D M. S. in India in the usual manner at the commencement of the following trooping season.

Regimental documents will be retained by the O. C. unit until passage is allotted by the Q. M. G. in India. They will then be completed and despatched by post direct to the Embarkation Commandant, notification to this effect being given to the O. C. hospital concerned, tide Appendix "A", item (v), and Appendix "G".

76. Cases of tubercle of lung.—The following additional documents will accompany the medical board proceedings of all ranks when they are being invalided on account of tubercle of the lung:—

A.F.I.-1220-A.,
I.A.F.M.-1228 (if any),
Duplicate copy of A.F.I.-1220.

A.F.B.-179-A.,
I.A.F.M.-1228 (if any),
I.A.F.M.-1228 (if any),

I.A.F.M.-1228 (if any),

I.A.F.M.-1228 (if any),

Duplicate copy of A.F.I.-122.

As a rule the despatch of cases of tubercle of the lung, except on transports, presents the greatest difficulty, owing to the unwillingness of shipping companies to accept this class of care. There is also difficulty concerning the provision of suitable accommodation.

Before accommodation can be arranged on a packet vessel for an invalid suffering from tubercle of the lung, a certificate as under, signed by a medical officer, together with an up-to-date copy of the medical case sheet must be sent to the Embarkation Commandant concerned under cover of an express letter, and the fact that this has been done will be recorded on the application for passage. [I.A.F. (Medical)-6, telegram, etc.]

"Certified that the other passengers in S. S. '.....' will not be injuriously affected owing to the presence on board of Captain ...... a case of tuberculosis of the lungs."

N.B.—This wording must be strictly adhered to, otherwise the certificate is useless.

77. Cases of venereal disease.—Regulations for the Medical Services of the Army in India, Appendix IX, will be carefully complied with.

For the purpose of embarkation such cases are sub-divided into two categories, viz.:-

I. Active, i.e., patients in hospital.

II. Non-active, i.e.,

- (a) Men attending hospital.
- (b) Those men still on the syphilis register.
- (c) Those under observation.
- I. Active.—In order to ensure the protection of other troops and the proper supervision and treatment of the cases themselves, men coming under category I will be sent home as "sick transfers".

On receipt of information that any man coming under category I has been included in the unit bulk allotment for any particular transport, the O. C. hospital will at once inform the D. M. S. in India by telegram, repeating to Q. M. G., full particulars of the man's number, rank, name, unit, transport by which sailing and date due for discharge or transfer to Army Reserve, notifying that hospital accommodation will be required for him en route to and on board ship.

Army Headquarters will then make the necessary adjustment of hospital accommodation on that vessel or, if time permits, transfer the man to a later sailing if desirable and will re-allot the vacancy caused in

#### Accommodation of families in Great Britain.

War Office letter No 118 General 110 (Q.M.G.-1), dated 11th April 1927, is published for the information and guidance of all concerned :-

- "I am commanded by the Army Council to refer to War Office letter No. 120[General]9609 (Q.M.G.-1), dated 1st October 1925, on the subject of warning Married Quarters Roll Personnel returning home, that owing to the shortage both of married quarters and of lodgings at many stations they should make precautionary arrangements for sending their families to their relations, in order to avoid difficulties and discomfort at the port of disembarkation.
- , I am to say that eases have occurred subsequent to that letter, of findilies landing in this country not only confident of obtaining quarters, but in some eases with the actual assurance from the Overseas Command that quarters would be available. In these circumstances the Council consider it advisable to repeat their request that publicity should be given in Command Orders to the following considerations and to suggest that it would be advisable, especially before each trooping season to repeat the warning and to ensure that it reaches all ranks:—
  - (i) Non-Commissioned Officers and men returning to the United Kingdom for discharge or transfer to the Reserve should realise that the housing shortage is still so acute that lodgings are not easy to obtain They are therefore advised to make timely arrangements for their accommodation on landing.
  - (ii) Non-Commissioned Officers and men returning on posting to the Home Establishment, to attend Courses of Instruction, or for any other reason involving continuance in the service in this country, must be warned that it is by no means certain that quarters will be available and, since lodgings are difficult to obtain, it is most advisable that alternative arrangements should be made in good time for the accommodation of their family either with relations or at any other selected place of residence. In this connection attention is drawn to Army Council Instruction 377 of 1924.

(ini) No soldier serving overseas is entitled to public quarters in the United Kingdom for his family. Soldiers whose families are returning unaccompanied should therefore be warned to make early arrangements for the accommodation of their families at their selected places of residence.

If, in any individual case, it is considered very desirable that public accommodation should be provided for the family on arrival at home, an application, giving the reasons for which such special treatment is recommended should be submitted to the War Office as soon as the requirement can be foreseen. Every effort will then be made to find suitable quarters, but no guarantee can be given that they will be forthcoming.

Notification of any such requirement for an unaccompanied family must reach the War Office at least a fortnight, if possible longer, before the arrival of the family in the United Kingdom."

Notice to Passengers.

All goods acquired abroad or during the voyage, however small the quantity may be and whether carried on the person or otherwise and whether or not they have been worn or used, must be declared, and produced on demand to the Customs Officer who examines the baggage. In any case of doubt whether an article should be declared the Customs Officer should be consulted.

The Customs Officer may require all packages of baggage to be opened for his examination; and the responsibility for opening, unpacking and re-packing the packages rests with the passenger or his agent.

Through Baggage.—Passengers en route to destinations outside Great Britain or Northern Ireland may on application deposit the duty on dutiable article retained in their possession for consumption outside Great Britain or Northern Ireland. ### Annexure to India Army Order 390, dated 8th July 1933.

Standing orders and notes for Indian infantry battalions proceeding to China.

- 1. Establishment.—Units detailed for duty in China will proceed at peace establishment, except as regards animals for which see paragraph 15.
- Diafts.—Except in emergent cases, demands for drafts will be limited to one annually, and it is forbidden that any demands should be made by any channel except through the G. O. C. the British Troops in China and the Adjutant General in India.

The procedure for placing demands for drafts is as follows :--

The G. O. C. the Brutish Troops in China submits to the Adjutant General in India on about the 1st July each year, a demand for an annual draft stating the number of Indian officers, Indian other ranks and followers that are required to bring the unit up to peace establishment. This demand specifies the specialists on particular individuals required, and also states definitely the class and casts of combatants and followers to be sent. On the receipt of this demand, the training battalions concerned, under instructions from the Adjutant General in India, prepare a draft of the necessary strength. On completion of overeas leave, the draft is despatched as soon as possible under arrangements made by the Quartermaster General in India

This procedure is not applicable to the despatch of compassionate leave details who will be returned automatically without demand when their leave has expired.

- 3. Followers.—Indian Army units will not emol regimental followers locally when serving overseas and bring them to India or Burma, as extra expense to the State is involved if such followers claim on being discharged or invalided to be returned to the station where they were enrolled.
- inits proceeding overseas will, as far as possible, take their full authorized establishment of regimental followers. If owing to casualties, it becomes necessary to employ local followers, they may be engaged temporarily, but all those so engaged must be discharged before the unit returns to India or Burma.
  - 4. Duration of service.-The period of service in China is three years.
- As laid down in R. A. I., para. 932, during the absence of the unit from India normal furlough and leave will be suspended.
- 5. Administration.—For purposes of administration, the forces in China are under the G. C. the British Troops in China.
- 6. Families—Free pas-ages between India and China for the family of British officers are admissible under the provisions of the War Office Allowance Regulations.
- The families of Indian officers, Indian other ranks and public followers will not accompany their units to China, but will be disposed of in accordance with para. 197, Passage Regulations, India.
- 7. Ordnance and clothing stores.—(a) Clothing and necessaries.—Indian troops and followers proceeding to China will take with them their Indian peace scale of clothing and necessaries which includes two blankets. These blankets are required for use on the voyage.

٠, ۱

Any extra issue blankets will be withdrawn and returned to the clothing depot on which the unit is dependent, unless they are required, in addition to the personal blankets for use during the train journey to the port of embarkation. These extra issue blankets will be handed over, betore the unit embarks, to the ordnance officer at the port of embarkation.

Additional articles required to complete to the authorized scales in Chura, as may be determined by the War Office, will be issued to Indian ranks but not to followers on arrival by the local authorities in that place. While serving in China, Indian troops and followers will, for purposes of clothing be governed by the Indian rules.

No stocks for renewals of clothing and necessaries except those peculiar to the unit will be taken from India. Stocks of articles peculiar to the unit to be taken from India will be determined by the commanding offier-Stocks on hand of made-up garments, materials and necessaries provided under regimental arrangements may also be taken, all freight charges incurred thereby being borne by the unit.

(b) Personal and regimental equipment as detailed in paragraphs 326 and 329, Equipment Regulations (Indua), Part I, will be taken by infantry battalions proceeding to China.

(c) Ordnance stores—accontrements, small arms and S. A. components—The unit will forward annually on 1st September to D. A. D. O. S., Area, an estimate of the ordnance stores which it is anticipated will be required during the next financial year. These stores will be demanded from India and held "ON DEPOSIT" by the ordnance officer concerned for issue to the unit as required to replace others which may have become unserviceable. Stores not available from those held on deposit with the R. A. O. C. will be issued from Imperial Stocks "ON REPAYMENT" if available, if not available the R. A. O. C. will demand from C. O. O., Allahabad.

Temporary station stores—will be drawn from the local ordnance depot as the G. O. C. the British Troops in China may direct.

- 8. Baggage and stores.—The scales of baggage for individuals and regimental and mess stores for units are laid down in paras. 359-A and 352, Passage Regulations, India
- 9. Equipment—tents.—Tentage will be handed over to the incoming unit before the unit leaves its station for the port of embarkation. Tentage held by the unit in China as peace equipment will be taken over by the relieving fauttation
- 10. Pay and allowances.—Pay will be drawn for the actual nucleors serving at a colonial station by requisitions for each on the command paymaster by the officer commanding the unit, but the account and multi-arrangements will be under the centrol of the controller of military accounts of the district to which the unit's training battalion or depot in India belongs. The officer commanding the training battalion or depot in India will be in direct account with the controller concerned for the training battalion or depot. British officers and officers of the Indian Medical Service may draw in India such parts of their pay as they wish instead of being obliged to receive it in dollars in China. Owing to constant variation from month to month of the official rate of exchange for the dollar, the unit will draw the each required for pay and allowances of officers and other ranks in sufficient time for these to be paid to those concerned on the last day of the month to which they relate, instead of on the 1st of the month following as stipulated in parragraph 50 of Financial Regulations, India, Part I.

A special allowance in aid of the cost of providing quarters for themselves is granted to British officers of Indian units serving at Hong Kong subject generally to the rules which govern the issue of ordinary lodging money as laid down in Allowance Regulations. The rates are:—

 Lieut-Colonel
 . \$70 per month.

 Major .
 . \$50 per month.

 Captain .
 . \$30 per month.

 Lieutenant
 . \$22 per month.

Advance of pay.—Indian units when proceeding to China are authorized to draw an advance of pay to the end of the current month and for the following month [para. 6 (VII), Pay and Allowance Regulations, Part II].

11. Rations.—Sea rations will be shipped on the scales laid down for "Cooking Ration" in India Army Form S-1528, and reserve rations in accordance with para. 128 of the 'Memorandum for the guidance of Masters of Transport and Freightships (Men) under the Government of India'.

As ghee, parched gram, tamarind, tobacco, and opium are not procurable in China, such additional quantities of these articles will be shipped as may be required for the troops that will be embarked for the return voyage.

Arrangements will be made by the General Officer Commanding, Presidency and Assam District, for the despatch of any supplies demanded from tune to time by the General Officer Commanding the British Troops in China.

Appendix A contains, inter alia, a statement showing the concessions as regards rations admissible to troops serving in China.

- 12. Intelligence.—(i) On receiving intimation of his unit being detailed for China relief, the officer commanding unit will apply to G. O. C. the British Troops in China, for an amended copy of the Hong Kong Military Report and any other publications which the G. O. C. may see fit to send.
  - (ii) On arrival in China, the relieving unit will take over all publications and notes relating to Intelligence from the outgoing unit
  - 13. Medical.—(a) Medical equipment will consist of regimental field panniers, field medical companion, and field surgical haverack together with a supply of medicines, medical and surgical equipments, medical comforts and disunfectants sufficient for the voyage, which should be obtained on indent from the medical store depot nearest to the port of embarkation All drugs, etc., are supplied in Hong Kong by the Army Medical Stores.
  - (b) No hospital furniture will be taken; requirements under this head will be met locally.
  - (c) Any further modifications deemed necessary are left to the discretion of the officer in medical charge of the relieving regiment, who should fully consult the medical officer of the regiment to be rehered.

officers, families, ranks and file, and followers fore leaving their stations in accordance with atten Regulations, India.

Remuneration for medical attendance on sepoys returning to India on furlough and leave as invalids will be granted to surgeons on private clips

- according to the scales laid down in para. 132, Marine Regulations, India, Volume II, Hired Transports.
- 14. Legal suits in civil courts in India.—Postponement of suits (except those mentioned below) pending before civil courts in British India to which persons subject to the Indian Army Act serving overseas are parties, can be obtained, in proper cases, under the Indian Soldiers Litigation Act, 1925 (for which see pages 509-513 et seq, Manual of Indian Military Law). The exceptions are pre-emption cases and cases in which the soldier's interest are identical with those of any other party to the proceeding or are of a purely formal nature.

There are also arrangements, which were made in 1910 and 1911, under which civil courts in British India are required to fix the date of hearing of suits to which an Indian soldier serving in China is a party, so as to allow a period of 4 months between the date of posting the summons or hotice and the date for hearing of the suit. See pages 164 and 165, Manual of Indian Military Law.

- 15. Animals.—(a) Local conditions in Hong Kong are unsuitable for horses taken from India, as there is but little use of big horses. Officers will not, therefore, take their chargers from India, but will purchase Chinese ponies which are more suitable for work in the surrounding hills and can be purchased for about Rs. 300 each.
- (b) Mules.—Subject to any special instructions issued equipment mules will not be taken from India; the relieving battalion takes over the mules left behind by the relieved battalion. Replacements are supplied locally. No mules are issued to the Indian infantry battalion at Hong Kong. Mules required for tactical and other purposes are supplied by the Hong Kong Mule Corps.
- 16. Books, forms and stationery.—(a) Books.—The G. O. C. the District or the Independent Brigade Area in which the training battalion of the unit serving in China is located, will arrange for the supply to the unit abroad of revised or new copies of books of Indian Regulations.
- (b) Forms.—One year's supply of Army Forms, Army Books, Indian Army and other forms will be taken. After the stock is exhausted, the G. O. C. the British Forces in China is empowered to indent direct on the Manager of the Forms Press, 166, Dharamtala Street, Calcutta, for any fresh supply necessary in accordance with the rules laid down in I. A. F. Z-2001.
- (c) One year's supply of stationery will be taken. After the stock is exhausted, the G. O. C. the British Forces in China, is empowered to indent direct to the Controller of Printing, Stationery and Stamps, 3, Church Lone, Calcutta, for any fresh supply necessary.
- 17. Returns.—Monthly strength returns (I. A. F. Y-1905) in respect of Indian infantry units (and also the Hong Kong Mule Corps) serving in China are required by the Accountant General, India Office, as the cost of these infantry units, including their affiliated training companies and a proportion of training hattalion headquarters in India, is recovered from the Imperial Government on capitation basis. These returns with the nominal roll of British officers will be forwarded to Army Headquarters, India, through the training battalions or corresponding formations concerned in India for transmission to the India Office. In preparing the returns, instructions on the I. A. F. Y-1905 will be carefully followed as errors

- necessitate correspondence and thus involve delay in forwarding the return to the India Office.
- Copies of the form will be issued on indent in the usual manner by the Manager of the Forms Press, Calcutta.
  - 18. Concessions and privileges .- See Appendix A.
- General information.—Information of value to individuals is contained in Appendix B.
   Amendment.—The G. O. C. the British Troops in China will bring
- 20. Amendment.—The G. O. C. the British Troops in China will bring to the notice of the Adjutant General in India, from time to time, any amendment he may desire to make to these standing orders and notes.

### APPENDIX B.

otes on conditions of the country for officers and other ranks proceeding to South China.

The Indian Infantry Battalion is quartered at Kowloon on the Main and and remarks regarding climate, etc., apply particularly to Kowloon.

 Climate.—The cold weather season (November to March) has a mean emperature of 62-F., and a mean relative humidity of 70.

The hot weather season (April to October) has an average maximum temperature of S5-F., with a relative humidity of S2

The relative humidity in the hot weather from 6 A.M. to 9 A.M. is usually 90, a factor of extreme importance as regards training.

The average rainfall is 85 to 90 inches per year.

The climate of Hong Kong during the summer is very trying to Europeans on account of the humidity of the atmosphere.

From June to September there are frequent typhoons which lower the temperature for a few days.

Heavy rains occur from May to September.

2. Accommodation.—There is a great shortage of accommodation for anaks, but British Officers can find rooms in a certain number of Government quarters, available for backelors only. Married officers have to make their own arrangements in hotels, flats or boarding houses. The best hotel in Kowloon at the present time is the Peninsula Hotel, the daily rate for front double rooms being \$15 inclusive, and for back double rooms \$14 inclusive. Boarding houses charges are from \$300.00 to \$450.00 per month. Practically there is no place for European children to play.

The Indian Infantry Barracks are situated in the midst of Kowloon in close proximity to Chinese bazaars,

Indian Officers.—Two small rooms for each Indian officer about  $10' \times 10'$  with washing rooms, etc., attached to each quarter are available, but these are very hot during the summer months.

Indian Other Ranks.—All Indian other ranks are accommodated in Whitfield Barracks with an overflow in Whitfield eamp barracks but even then the accommodation is very short. The buildings in Whitfield Barracks are mostly two storied bungalows with verandabs on both sides but in Whitfield camp, barracks are single storied with one variandah only.

Buildings for officers, stores, schools, coffee shop, Indian officers' clubs, etc., have to be taken from what should be living accommodation. Wash houses and cook louses are good with tap water laid on.

Insufficient accommodation also applies for Warrant officers of the Indian Army Service Corps; the Indian personnel of the Mule Corps are not housed in separate lines but are in Whitfield Camp Barracks with other units.

- 3. Water.—The system of water supply is good. Tap water is laid on throughout the barracks but care should be taken to prevent wastage, otherwise, in the event of rains not being up to the average, shortage may occur.
- 4. Medical.—The chief epidemic diseases are small-pox, diphtheria, cerebro-spinal fever, cholera and enteric fever.

Prevailing diseases .- Outhreaks of small-pox are frequent; malaria is endemic. Skin diseases and common colds are exceedingly common amongst the Indian troops.

It is imperative that all ranks be protected by recent vaccination and anti-typhoid inoculation.

Effects of climate.-Debility due to climate is a common cause of sickness amongst European women and children.

- 5. Banks.-There are many good banks. Hong Kong and Shanghai Banking Corporation is used by the Service.
- 6. Post .- Mails are irregular but there are various routes to England For the convenience of Indian troops, arrangements can be made with the post office at Kowloon for a Hindustani speaking official to be there two or three days after pay to assist Sepoys wishing to send Money Orders to
- 7. Sports and Games.-Riding is practically nil. Some polo is played on the island of Hong Kong.

Facilities for tennis, football, cricket, hockey, golf (two courses both 18 holes) at Fanling (mainland) one hours journey by train are available. There are 9 hole courses at Happy Valley and at Deepwater Bay in the Island.

There is a good deal of yachting and bathing in summer months, also a little small game shooting.

For Indian Ranks.-Hockey-the Battalion by courtesy of Manager, Kowloon-Canton Railway, uses railway land to play on. There is also ground at United Services Recreation Club (see para. 8).

Bathing for Indian troops is poor.

8. Clubs .- At Kowloon there is the United Services Recreation Club (i.e., Army and Navy). Several tennis courts and three hockey grounds are available. The Indian Battalion by paying \$30.00 is allowed the use of one ground and the Hong Kong Singapore Brigade Royal Artillery the use of the other ground. For matches No. 1 ground can be booked on application to the Secretary.

Other Clubs .- Army officers can join as subscribers only, i.e., monthly subscription but no entrance fee.

- 9. Training.—There are very poor facilities for training near lines. For any field work to march out to the ground takes at least 11 hours.
- 10. Range.-No revolver range is available. The 30 yards range and

the Miniature Range are rather poor. There are two ranges at Old Kowloon one hour's march from Whitfield

Barracks allotted by Command Staff to units as required. 11. Officers' Mess. - At present No. 1 Stockwell Villa is allocated as mess. The Bungalow consists of :-

On Ground Floor .- 1 rooms -- 1 Anteroom, 1 Dining Room, 1 Billiard Room, 1 room officers quarters.

Upstairs.-4 large rooms and 2 small rooms-i.e., 2 Field officers quarters and 2 other quarters. There is no accommodation for mess office and store room, so the two small rooms have to be used as such instead of being used as the Field officers extra rooms.

See India Army Order No. 52 of 1924 for instructions of action to be taken before leaving India regarding reimportation of mess property to India.

12. Conveyance and Travelling.—A ferry from Kowloon to Hong Kong runs at frequent intervals. Rickshaws, Motor Buses, Taxis and cars are always available on hire.

A railway runs from Kowleon to Canton, through train service liable to interruption but on the British Section, i.e., up to the frontier there is a regular service.

General classification of roads in the Colony is good.

Boats leave daily to Canton and Macao.

13. Private Followers.—Officers are recommended to take only such private followers as may be necessary for the voyage, servants being cheaper and more suitable in China. If private servants are taken, a limit of 10 per cent. only of the actual strength of Indian ranks is admissible.

"2. The underlying object of the above decision is to make the reruiting budget-Head II-M .- (b) - Recruiting Staff, self-contained as far is possible, that is, that it should embrace all charges in connection with ecruitment of personnel both for fighting units and various administralive services. Consequently the above-mentioned consolidated subsist-ence allowance and travelling expenses debited to the budget of the respective arms of service for which the recruits are enrolled will, with cffect from 1st March 1952, he compiled to one Head of the budget (viz., Head II-M.-(b)—Recruiting Staff, incidental and miscellaneous expenses), irrespective of the unit or service for which enrolled. In this connection it should be remembered that the incidental and miscellaneous expenses of the recruiting staff are a locally controlled item and the budget estimates thereof are framed by respective commands and the Burma district. In order, therefore, to ensure that such estimates are accurately framed, all units and administrative services will, in the case of those recruits enrolled or medically rejected at unit or corps headquarters, render to the recruiting officer concerned by the first week of each quarter of the financial year a statement showing the number of recruits enrolled or medically rejected up to the last date of the previous quarter and the expenditure incurred. Charges on account of return journeys to their homes of medically rejected recruits are not compiled to Head H-M.-(b)—Recruiting Staff, and will not be included in the statement of expenditure rendered by units or corps headquarters.

Submission of statements quarterly instead of monthly as at present will commence from the financial year 1933-34."

#### INSTRUCTIONS.

- In computing the content in cubic feet of timber by the aid of the table of decimals above, the following procedure will be adopted to ensure uniformity:—
  - (1) The largest dimension (almost always the length) will be multiplied by the number of pieces, the resulting number will be multiplied in turn by the next larger dimension and finally by the smallest.
  - (2) After every multiplication the figures beyond three in the decimals will be cut off, and if the fourth figure is five or above, one will be added to the third figure.
  - (3) The answer will be given to three places of decimals.

Example :-

33 pieces-11'-31"×31"×21".

11.293

33878 33876

372-035 here the decimals only extend to three so none are cut off.

22358160

745272 96-885

≈96 885×·229

= 22-187 Fourth to sixth decimal figure cut off and the third figure increased by one.

Result-22.187 Cubic feet.

- 2. Issues of timber will be calculated by this method.
- 3. Receipts of timber calculated on the duo-decimal system, fractional method or on the decimal equivalent system to two places of decimals will be re-calculated in accordance with the above table of equivalents and the reason for any difference shewn on the vouchers before the timber is

oe re-calculated in accordance with the above table of equivalents and the reason for any difference shewn on the vonethers before the timber is brought to account. No loss statements will be necessary for discrepancies due to different methods of calculation.

I.A.O. 107. Appointments of civilians,—Government of India, Army Department Memoranda, are republished below in continuation of India Army Order 609 of 1931:—

GOVERNMENT OF INDIA, ARMY DEPARTMENT MEMO. No. 38323-1 (A.D.-3),
DATED THE 1ST DECEMBER 1932.

Interpretation of the term 'Government service' as used in this Department Memorandum No. 509-A.D.-5, dated the 25th September 1931.

The question having arisen of the exact meaning of the term 'Government service' in Army Department Memorandum No 500-A.D.-5, dated the 25th September 1931, the Government of India have decided that a person who on the 27th September 1931 was (i) in the whole-time service of Government and (ii) remuncrated either by salary or recurring honorarium, should, for the purposes of the Memorandum, be held to have been in 'Government service' on that date even if his status on that date was not substantively permanent but provisionally permanent, substantive or provisionally substantive in a temporary post, officiating in a permanent or temporary post or probationary against a permanent venuey. It follows that a Government servant not then in permanent service if he is confirmed after the 27th September 1931 without a break in service will for the purposes of the application of the new seales of pay and the new leave rules be dealt with in the same way as if he had been in permanent service on that date

GOVERNMENT OF INDIA, ARMY DEPARTMENT MEMO NO 38369 (AD-3), DATED THE STH FEBRUARY 1933

The Government of India have decided that the conditions laid down in Article 242 (a), Civil Service Regulations, shall be waived in the case of Government servants who though holding permanent posts have not been appointed substantively thereto on account of the general emisarge on confirmation imposed by this Department Memorandum No. 509-A.D.-5, dated the 25th September 1931, and who belong to establishments in which there are no leave reserves

I.A.O.112, Pistola Revolver No. 1, Mk. VI.—It has been decided to reduce the weight of the main spring of the above pistols revolver from 15 to 18 lbs, to 12 to 15 lb.

# 28th February 1933.

2. Under arrangements to be made by chief ordnance officers of area arsenals, all main springs of pistols in the hands of troops and those of the annual allowance will be exchanged.

The new springs must be issued and fitted by units before the old ones are returned to the I. A. O. C.

- As it is impossible to mark the lighter springs to distinguish them from the heavier pattern, officers commanding will take every precaution during the turnover of springs to ensure that they are kept separate.
- 3. On the removal of the heavier spring from a pistol it will be immediately tied with a small piece of string through the bend, the string will not be removed during the return of the springs to arsenal.
- 4. Bulk issue only will be made to ensure that the change-over is made in all pistols at the same time.
- 5. A record of the registered number of pistols in which the lighter spring has been fitted will be maintained.
- 6. After fitting of the lighter spring, armourers will check the hammer protrusion with the gauge in their possession. The hammer nose must be up to, but not beyond, the high limit of the gauge (.054").
- 7. The rotation of the cylinder for central firing will be checked with fired cases, the cap chumber filled with wax, and any out of centre will be corrected by the armourer
- 8. C. C. M. As. have been instructed to check weights of new springs fitted and to endorse on their inspection reports whether this has been z-uccessfully carried out or otherwise.

- I. A. O. 127. Means for combating termites or white ants.-With reference to paragraph 401-A. of Regulations for the Army in India the followine notes are published for the information of all concerned :-
  - 1. Terraites may be roughly divided into two groups-
    - (a) Those that make their rests in the ground
    - (b) There that make their nests in the wood on which they are

Group (a) are the most darrerous since their communities often contarn mill me of ander, londe, so that even if all those in a building are destroyed it rates Little difference to the effernive power of the nest.

Group (b) live in much smaller communities of only a few hundred individuals; and as they live where they eat, the removal of the affected timber or other material will probably destroy the colony.

2. Group (a) attack buildings through underground galleries which in the case of large nests may be three to four hundred yards long. The only effective measure therefore is to destroy all nests within 400 yards of building it is desired to protect.

Nests are sometimes found in tree stumps, but more frequently on the open ground. They can be distinguished by small hillocks of earth six inches to four feet in height. Termites cannot exist in waterlogged soil and yet must have a certain amount of moisture; it follows therefore that the most favourable site is on a terrace half way down a slope; but the whole area should be carefully searched. Where search fails the galleries from an affected building should be traced out foot by foot till the nest is found.

When found the nest should be dug up, the royal cell extracted (this is a round flattish structure about 3" high by 5" or more in diameter deep down in the nest; it contains the queens which resemble large fat maggots, two or three inches long), the queen or queens killed, and the remaining inhabitants destroyed with crossol, parallin or petrol.

One or two men permanently employed on this work will soon acquire considerable skill in tracing down nests.

Where the location and destruction of nests is impracticable a machine known as an ant exterminator may be used; this however is very much faute de micux. It consists of a coke or charcoal furnace on which a quantity of a mixutre of 75 per cent, white arsenic and 25 per cent. sulphur is placed. The furnace is connected to an air pump, by means of which a draught is driven through the former to support combustion and drive the poisonous fumes out through a tube. The nozzle of this tube is applied to one of the termite holes and all others are blocked up. The fumes are then forced in for 5 to 15 minutes. A similar method is to place in the runs sawdust mixed with 40 per cent, white arsenic.

Not only do the insects coming in contact with the arsenie die, but other workers and soldiers devour them and are also personed. The method, however, is at best a palliative; it may reduce the teeming millions for a short time, but they are quickly replaced. The use of arsenie in a dwelling house is always fraught with danger and this method, if used for habitation.

In the Economy Scheme of 1931, the reduced rates of pension introduced in 1930, which previously applied only to soldiers who calisted or re-emlisted on or after 1st April 1930, were applied also to all soldiers who had not already undertaken to serve for 21 years with a view to pension before 1st October 1931, or before 1st January 1932, if eligible to re-engage before 1st October 1931 [Pay Warrant 1931 as amended by Amendments No. 22 (Army Order 235 of 1931)]. It has now been decided that all complete years of service at the 1919 rates of pay and at the 1919 rates reduced by 10 per cent. will count for pension at the 1919 pension rates, but the "mark time" periods, " , during which soldiers may retain the reduced 1919 rates of pay, will count for pension at the 1930 pension rates only. In addition, soldiers enlisted between 25th October 1925, and 31st March 1930, will count at the 1919 pension rates all service on the engagement on which they were serving on 1st October 1931, including any further engagement on which they had undertaken to serve before that date. To become eligible, however, for these additional benefits a soldier must complete the minimum period of service required under the existing pension regulations.

#### NOTICE.

#### Memorial to the late Field Marshal Sir William Robertson, Bart.

Sir,

The late Field Marshal Sir William Robertson, Bart, was born in the Parish of Welbourn, Lincolnshire, he enlisted as a Trooper into the 16th Lancers, and by his own indomitable energy, resource and ability, achieved the unique distinction of rising to the highest military rank which he King, whom he served so well and faithfully, could bestow upon him.

Such a remarkable career as his during which he held important commands and highly responsible appointments proving himself to be a skilled and gallant soldier, has aroused a strong feeling of admiration, particularly in his own County of Lincoln, and a widespread desire to perpetuate his memory in the County of which he was such an illustrious son.

This desire has taken definite shape, and will, I am confident, be shared by many hundreds of officers and other ranks to whom the Field Muschal was personally known, by many military units who served under him in different parts of the British Empire, and by numerous civilian friends and admirers.

It is proposed to erect suitable memorials in the Parish Church of Welbourn and in Lincoln Cathedral setting forth the services rendered by the distinguished Field Marshal, and further, if the response to this appeal will allow, to provide a permanent fund for the advancement in life of the youths of his native Village, this being in accordance with his well-known keen interest in the care and education of boys and young men, born of his own experiences.

For many and sufficient reasons it has been decided to limit subscriptions by individuals to two guineas. All contributions, great or small, will be gratefully received, and may be paid into any Bank in the United Kingdom or abroad for the credit of the "Robertson Fund" at the National Provincial Bank, Lincoln, or sent by post to the Treasurer of the Fund at that Bank.

The result of this appeal will be made public in due course, and I trust it may receive the warm support which it so eminently deserves.

I beg to remain.

Yours faithfully,

YARBOROUGH,

Lord Lieutenant of the County of Lincoln.

(i) Monthly Return of Sick (A. F. A-31).—It has been brought to notice that in certain instances incorrectly high figures have been returned under the heading "Treated in Barracks".

This has arisen through double entries being made in respect of men who are first treated in harracks under the care of the regimental medical officer, and are later sent for treatment in the detained ward of the Hospital. Such patients have been included in the returns both of the regimental medical officer and of the detained ward of the hospital.

Officers commanding hospitals will take steps to ensure that this statistical error is avoided in their returns.

(ii) Hospital Record Card (A. F. I-1220).—Attention of officers commanding all British military hospitals and British wings of Indian military hospitals is drawn to the necessity of entering on every Hospital Record Card (A. F. I-1220) the diagnosis of the ease in exact accordance with the new (1931) edition of the "Nomenclature of Diseases", as amended to date.

As the compilation of statistics from these cards is carried out at Army Headquarters by clerks who possess no technical medical knowledge, any deviation from this rule leads to much loss of time and to the risk of inaccuracy.

The irregularity now brought to notice has, of late, been increasing.

- 1, A. 0, 514. Effect of emergency cut in pay on advances,—The Government of India in Finance Department letter No. D.[2771-F., dated the 23rd April 1932, issued the following orders:—
  - (i) Under the emergency deductions rules the pay, as such, of Government servants has not been reduced but merely undergone a temporary deduction. An advance under Articles, 155, 156, 158 and 159, Civil Account Code, Volume I, which is limited to so many months' pay, may therefore, subject to the conditions prescribed in the Articles concerned, be granted at the option of the Government servant on the basis of unreduced pay.
  - (11) The scale of repayment of such advances will, so long as the emergency cut in pay remains in force, be as follows:—
    - (a) Advances drawn under Articles 155, 156 and 158, Civil Account Code and passage advances under Article 159 (i) may be recovered in instalments equal to two-thirds (rounded to the nearest rupee) of those which would but for the emergency cut have been prescribed under the respective rules for those advances, if the authority sanctioning the original advance is satisfied after due scrutiny as to the need for such a concession in individual cases. A like concession may be allowed in similar conditions in respect of advances for the purchase of motor-cycles.
    - (b) An advance of pay under clause (a) of Article I59 is recovered in three equal month's instalments, while one under e'ause (b) is recovered in instalments of one-third of pay. In deserving cases where hardship would otherwise be caused these recoveries may be effected!—

ì

- (b) in instalments of one-fourth of pay (i.e., unreduced pay).

## INDIA ARMY ORDERS.

I. A. O. 517. Extracts from Secretary of State's Weekly List No. 32. dated the 10th August 1933.—Extracts from Secretary of State's Weekly list No. 32, dated the 10th August 1933 of military officers, etc., of the Indian establishment permitted to return to duty, granted extensions of leave, or retiring from the service, etc., are issued with this order.

06467-III|M.S.-3.

I. A. O. 518. Employment I. A.—Reference para. 4 (b), Appendix XVII, R. A. I. As I. A. F. Y.-1969 is intended as a card index, it will be folded when despatched to recruting officers, district soldiers' board and the Pension Paymaster, Madras

B.-25927 A.G.-2.

- I. A. O. 519. Bands.—Reference I. A. Os. 337 and 444 of 1929. British units in India are permitted to re-equip their bands with the new pitch instruments on the distinct understanding that no extra expenditure is caused to Indian revenues, and provided that—
  - (i) the district or independent brigade area commander is satisfied as to the necessity,
  - (ii) sufficient old pitch instruments are retained in serviceable condition to enable the band to perform with other bands so equipped.

B.-3607|A.ú-11.

I. A. O. 520. Remittance of balance credits of clothing allowance from on the unit to another on transfer of personnel.—As the Clothing Allowance Fund in Indian units is a regimental fund, vide Appendix I, Regimental Accounts, Indian Cavalry and Infantry, the cost of remittance of credit balances from one unit to another on transfer of personnel is not borne by Government and remittance transfer receipts cannot be issued for the purpose. These moneys should therefore either be sent by money order or by cheque, the money order commission or bank charges being met by the despatching unit from the interest accruing to the fund.

B. 25791 A.G.-13.

I. A. O. 521 Turnover of field medical equipment.—In order to avoid loss to the State through deterioration, etc., it has been decided that, in the equipment of general hospitals, P. V. M. S., item No. 190-Liquor

### 9th September 1933.

- "Special samples of all stocks which carry a warrenty will be submitted two months before the expiration of the warranty period. Samples of these will also be submitted as laid down in Appendices I or II but if the former submission occurs immediately before or after the date on which the periodic sample is due the latter will be omitted. In no case will the former be allowed to lapse."

### " NOTES ".

- implies that the article is in good order and fit for issue ') implies that the article is in good order and fit for issue up to a minimum period of sar months. It does not imply that it should be issued within 6 months. If not consumed by normal issues within 6 months. If not consumed by normal issues within that period fresh samples will automatically be forwarded in the next T. V. list, if included in Appendix I. If not included in Appendix I they will be forwarded for a further opinion within two months of the expiration of the period already given."
  - "Symbols 'B', 'C', 'D', and 'E' (or the words 'Fit for issut within one, two, three or four months') imply that the article will not keep beyond the period given without some risk of deterioration. Stocks should therefore be consumed within these periods if possible either by local issues, or if the value of the stock justifies such action, by transfer to another station under arrangements made by the A. D. of S. and T. When circumstances preclude the possibility of this being done a further opinion may be obtained towards the end of the period already given."

Commanding officers will use their discretion as to what proportion of the ammunition is to be devoted to individual, and what to collective battle practices, in accordance with local facilities.

At least 5 rounds will be fired in respirators.

Whenever possible, and when range facilities exist, the programmes of collective battle practives should exclude exercises to be carried out by machine guns, rifles and light automatics in co-operation. The object of these schemes should be to bring out the essential differences between machine gun, rifle and light automatic tasks. Machine guns should not fire ball ammunition unless they have completed Part III of the Annual Machine Gun Course.

GOVERNMENT OF INDIA.

ARMY DEPARTMENT,

Simla, the 25th August 1933.

To

THE ADJUTANT GENERAL IN INDIA.

Recommendations of Pensions Committee, 1933.

SIR.

The Government of India have had under consideration the Report of the Informal Committee on War Pensions held in Silma in June 1933. The decisions reached on the recommendations of the Committee are embodied in the Chnexure to this letter. A separate communication will be made in regard to recommendations Nos. XV and XX, which are still under consideration.

I am, Sir,

Your most obedient servant,

J. R. BLAIR,

Deputy Secretary to the Govt. of India.

No B. 25890-A.G -14

Copy to :-

The Financial Adviser, Mulitary Finance, for communication to the Military Accountant General, the Director of Army Audit and all Controllers of Military Accounts, the Chief of the General Staff; the Secretary, Indian Soldiers Board

J R. BLATR.

Deputy Secretary to the Govt, of India.

### Appendix to I. A. O. 560, dated 25th September 1933.

RECOMMENDATIONS OF THE WAR PENSIONS COMMITTEE AND THE ORDERS
OF GOVERNMENT THEREON.

I. Government should satisfy themselves that the authorities to whom applications for pensions should be made in the case of disbanded units, etc., are in for well known to ex-secups and their families, and should, if necessary, take special steps from time to time to bring the existence of these authorities to the notice of the classes concerned [paragraph 19 (1)].

The recommendation is accepted and steps are being taken to give effect to it.

II. Specific provision should be made in the Regulations whereby an applicant, after being told clearly the reasons for the rejection of his claim in the first instance [see paragraph 379 (a) A. R. I.] should have the right to affiged to a higher authority, prescribed by Government, against the order of an O. C. rejecting his application for a pension [paragraph 19 (2)].

The right of petitioning higher authority already exists under paragraph 379 and Appendix VII of the Regulations for the Army in India. The attention of all Commanding Officers is being drawn to the provisions of paragraph 379-A; and where there is any doubt in the matter to forward petitions asking for reconsideration of pension claims to higher authority In view of this explanation, the Gevernment of India do not consider it necessary to make any separate provision to the same effect in Pension Reculations.

111. The finding of a Medical Board as to the cause of a death or disability and its opinion as to attributability to military service should be communicated in clear terms to the applicant, and the Regulations should give him the right to represent his case to some specified higher authority if he is not satisfied with the decision [paragraph 19 (3)].

The findings of Medical Boards as to the Medical cause of a death or disability already require confirmation by a superior medical authority and, if so confirmed, must be accepted as final. A right of appeal would be out of place on the purely professional aspect of the case.

Appeals against the opinion of a Medical Board on the question of attributability stand on a different footing. Existing orders expressly provide (I. A. F. Y.-1048) that the authority responsible for bringing an applicant before a Medical Board will inform him, after the Medical Board has expressed its opinion and after consultation with the Controller of Pensions, whether his claim is accepted or not. Steps will be taken to see that paragraph 379-As of A. R. I is compiled with, that is to say that the orders so communicated, if the claim is not successful, contain a clear statement of the traceons why its rejected. Thereafter it is open to the applicant, if he is dissatisfied with the result, to submit a further petition in accordance with paragraph 379 and Appendix VII of R. A. I. and Commanding Officers will similarly be instructed to forward such petitions where there is any element of doubt in the matter. The opinion of the Medical Board on the question of attributability is not final and therefore there would be no point in providing for an appeal at an earlier stace. The question, however, of limiting the powers of Medical Boards to express opinions regarding attributability is under separate consideration. In view of the existing provision in R. A. I. and the above explanation of them, the Government

do not consider it necessary to include any separate reference to the matter in Pension Regulations.

IV. Government should adopt a liberol attitude in giving a claimant the benefit of the doubt; where differences of opinion arise, cases should be submitted more freely than they appear to be at present for the orders of senior officers [ paragraph 19 (4)].

The recommendation is accepted,

V. Applicants for Great War disability pensions should get the general benefit of the 1922 rules, and their claims should be dealt with under those rules, but Government should accept the presumption that all disabilities contracted on field or foreign service during the war were, in fact, 'attributable to multury service', unless there is sufficient evidence clearly to rebut such a presumption (parayraph 20).

The recommendation is accepted.

VI. The period within which claims to disability pensions must be submitted should be extended for three years and Commanding Officers should be given discretion to forward claims received after the date, if they are satisfied that there are grounds on which the claim should be considered (paragraph 21).

In view of the time that has capsed since the war and of the extensions already given, in view also of the practice in other countries, the Government of India are not prepared to extend any further the date after which new applications for Great War disability pensions are liable to be rejected on the ground that they are time-barred. The existing orders must stand on the other hand, they are prepared to accept the second half of the recommendations and will inform all Communiting Officers that they may at their discretion investigate and forward claims received for the first time after the prescribed date, if they are satisfied that there are special reasons to justify such a course. As further explained below, old claims which have been rejected, in the past, but which fulfil the conditions required for recommendation in the hight of the decisions now reached, will not be liable to rejection on the ground that they are time barred for a period of 2 years from the date of these orders.

VII. A pension sanctioning authority may grant full arrears if he is salified with the explanation for the delay; but applications for arrears beyond those sanctioned by lam should be sympathetically considered by Government. (A claim put forward in consequence of any decision on the part of Government to re-open the consideration of certain classes of cases is not to be Lemmed 'beluted') (paragraph 22).

The first part of this recommendation is in conformity with the existing practice. The Government accept the second part, but must retain discretion to limit the amount of arrears granted in individual cases, with due regard to equitable and financial considerations and with special reference to the date on which the application was first made and the nature of the explanation for the delay in rinking at. The last portion of the recommendation is also accepted.

VIII. The principles advocated in regard to claims for disabilities incurred during service should be extended, where applicable, to cases of post-service manifestation. The rules on the subject should definitely be incorporated in Regulations and be brought to the notice of those who are likely to be affected by them (p trugraph 23).

The Government are prepared, and have always been prepared, to consider sympathetically claims for pensions based on the post-war manifestation of de-abilities necurred during service, provided that a clear connection can be proved between the two. It would be dangerous, however, to spread the impression that any ex-coldict who contracts a disease after leaving the Army is entitled to a persion and each case must therefore be considered on its merits. For this reason it would be impracticable to formulate specific rules on the subject for incorporation in Pension Regulations—but the Government are pripared to give an assurance that in dealing with such cases they will be guided by the principles mentioned in Recommendation No. XII.

IN. Those who wish to do to should be allowed the option of having their disability awarding to the original medical board proceedings re-asserted under the 'degree' method, and under the definition of those 'degrees' in face at the time of their enlutment (paragraph 24).

Those who were granted pensions before 1922 were given this option when the 1922 Rules were issued. Those who were pensioned after 1922 have generally-benefited from the new rules by which they have been governed—neluding the greatly increased rates of pension—but the Government have no objection to allowing the old-rates and rates to be applied in those cases, if any, where they would be nore favourable to the individual.

X. Government should exercise discretion in applying the rule that a disability pension is not admissible to a man who refuses to undergo operatice treatment (peragraph 25).

The recommendation is accepted. This is the present practice.

XI. The rule under which an individual may draw only one pension should be waved in special cases, for instance, where heavy sacrifices have been made by a family (paragraph 26).

Government regret that they must reject this recommendation. When a man is cutilled under the rules to more than one class of pension, he is invariably given the most favourably. Having recard to the fact that the pension is given primarily for the maintenance of the individual, they must adhere to the present practice in the interests of the general tax-payer and leave particularly hard cases of the kind mentioned by the Committee to be met by special assistance from the charatable funds that exist for such purposes. §

XII. If there is any evidence on record to show that a man was discharged on medical grounds or that he was treated in a hospital during the war for the disability from which he is now suffering, or from something that can be logically connected with that disability, the onus should lie on Government to show that he should not receive a pension. If, on the other hand, there is no such evidence, the onus should lie on the man to show that he should receive a pension!

The recommendation is accepted.

XIII. No adverse presumption should be raised against an applicant owing to the loss or failure to produce record, which, according to rule, should be permanently retained (paragroph 7).

The recommendation is accepted.

- XIV. Unless the Regulations in force when a man enlisted provided for the recision of a disability pension once sauctioned, such a pension should not be susceptible of reduction on the score of a diminution in the degree of disablement (paragraph 29).
- Permanent pensions are not subject to revisions or reduction and it is only when there is a doubt as to the permanence of the disability or degree

do not consider it necessary to include any separate reference to the matter in Pension Regulations.

IV. Government should adopt a liberal attitude in giving a claimant the benefit of the doubt; where differences of opinion arise, cases should be submitted more freely than they appear to be at present for the orders of senior officers [paragraph 19 (4)].

The recommendation is accepted.

V. Applicants for Great War disability pensions should get the general benefit of the 1923 rules, and their claims should be dealt with under those rules, but Government should accept the presumption that all disabilities contracted on field or foreign service during the war were, in fact, 'attributable to military service', unless there is sufficient evidence clearly to rebut such a presumption (paragraph 20).

The recommendation is accepted.

VI. The period within which claims to disability pensions must be submitted should be extended for three years and Commanding Officers should be given discretion to forward claims received after the date, if fixey are satisfied that there are grounds on which the claim should be considered (paragraph 21).

In view of the time that has etapsed since the war and of the extensions already given, in view also of the practice in other countries, the Government of India are not prepared to extend any further the date after which new applications for Great War disability pensions are liable to be rejected on the ground that they are time-barred. On the other hand, they are prepared to accept the second half of the recommendations and will informed Commanding Officers that they may at their discretion investigate and forward claims received for the first time after the prescribed date, if they are satisfied that there are special reasons to justify such a course. As further explained below, old claims which have been rejected, in the just, but which fulfill the conditions required for reconsideration in the light of the decisions now reached, will not be liable to rejection on the ground that they are time barred for a period of 2 years from the date of these orders.

The Government accept the second part, but must retain discretion to limit the amount of arrears granted in individual cases, with due regard to equitable and financial considerations and with special reference to the date on which the application was first made and the nature of the explanation to the delay in bushing it. The last portion of the recommendation is also accepted.

VIII. The principles advacated in regard to claims for disabilities incurred during service should be extended, where applicable, to cases of post-service mannlestation. The rules on the subject should definitely be incorporated in Regulations and be brought to the notice of those who are bledu to be affected by them (pergaraph 23).

The Government are prepared, and have always been prepared, to consider sympothetically claims for pethsions based on the post-war manifestation of de shifters neverted during service, provided that a clear connection can be proved between the two- It would be dangerous, however, to spread the impression that any cx-soldier who contracts a disease after leaving the Army is entitled to a pussion and each case must therefore be considered on its merits. For this reason it would be impracticable to formulate specific rules on the subject for incorporation in Pension Regulations—but the Government are prepared to give an assurarce that in dealing with such cases they will be guided by the principles mentioned in Recommendation No. XII.

IX. Those who wish to do so should be allowed the option of having their disability according to the original medical board proceedings reassessed under the 'legrer' method, and under the definition of those 'degrees' in force at the time of their enlistment (paragraph 24).

These who were granted pensions before 1922 were given this option when the 1922 Rules were issued. The recommendation is accepted. This is the present practice.

XI. The rule under which an individual may draw only one pension should be waved in special cases, for instance, where heavy sacrifices have been made by a family (paragraph 26).

Government regret that they must leject this recommendation. When a man is entitled under the rules to more than one class of pension, he is invariably given the most favouriable. XII. If there is any evidence on record to show that a man was discharged on medical grounds or that he was treated in a hospital during the war for the disability from which he is now suffering, or from something that can be logically connected with that disability, the onus should lie on Government to show that he should not receive a persion. The recommendation is accepted.

XIII. No adverse presumption should be raised against an applicant owing to the loss or failure to produce record, which, according to rule, should be permanently retained (paragraph 27)

The recommendation is accepted.

XIV. Unless the Regulations in force when a man enlisted provided for the recision of a disability pension once sanctioned, such a pension should not be susceptible of reduction on the score of a diminution in the degree of disablement (paragraph 28).

Permanent pensions are not subject to revisions or reduction and it is only when there is a doubt as to the permanence of the disability or degree

of disability that temporary or provisional pensions can be granted und the 1922 rules. This procedure is so reasonable in itself and the gener features of the 1922 rules—including the increased rates of pension—are s much in favour of the individual that the Government have decided that the must adhere to the present practice and reject this recomplendation.

XV. Pensions granted to vidous should not be forfeited on re-marriage is the old rule is not restored the existing rule should be modified to provide that a widow re-marrying in her deceased husband's family will retain her pension. In any case stricter proof of re-marriage should be in sisted on (paragraph 29).

The views of the Army will be obtained on these suggestions and a further announcement will be made in due course.

XVI. Government should allow some form of equivalent financial relief to men who failed by a narrow margin and from no fault of their own to qualify for the mustering out concessions [paragraph 30 (1)]

The Government are not prepared to accept this recommendation. The practical result of acceptance would be to extend "by a narrow margin" the period which, after due consideration, was originally fixed for the grant of mustering out concessions on demobilisation. Apart from the difficulty of deciding what the margin should be and of ascertaining after such a long interval the precise circumstances of each claim that might arise if the period were extended, there would be nothing to prevent pressure being brought to bear to consider 'hard cases' falling outside the limits of the new period and this process would be capable of indefinite extension. There is no evidence to show that the original period was in any way illiberal or insufficient and it must therefore stand.

XVII. It should be presumed in favour of an applicant claiming under A. I. (I.) 171 of 1921 the revised rates of pension published in A. I. (I.) No. 865 of 1920, that his re-employed service was satisfactory [paragraph 30 (2)].

The recommendation is accepted.

XVIII. A "special" pension admissible under paragraph 591 of the 1923 edition of the Pension Regulations should be higher than the ordinary pension [paragraph 39 (3)].

The Committee appear to have been under a misapprehension. A "special" pension under paragraph 206 (2) of the Pension Regulations, which corresponds to paragraph 591 of the Pay and Allowance Regulations, Part II (1923 Edition), is one allowed to an individual who has to leave the service in specified circumstances (e.g., on compulsorily retired, but not "mustered out", or on being invalided on account of a disability not attributable to military service) before becoming eligible for the ordinary pension of the lowest rank held by him during the last three years of his service. It is therefore a concession, in that the individual gets a pension to which he would not otherwise be entitled. Government therefore do not consider the any anomaly exists.

XIX. Petitions received on behalf of ex-soldiers should not be summuril, rejected on the ground that they have been submitted by non-officia Agencies, and ex-soldiers should be left free to employ such Agencies i, they think that they can trust them (paragraph 31).

The recommendation is accepted on the understanding that petition from ex-coldiers or on their behalf are submitted through the recognised official channels prescribed in Appendix VII to Regulations for the Army in Irdia.

- XX. (a) The term "political misconduct" should be more precisely defined and a persion should not be forfeited on political grounds unless its holder has been convicted of an offence against the state.
  - (b) Pensions forfeited on the ground of their holders' partleipation in the Akali movement should be restored.
  - the Akali morement should be restored.

    (c) Power to forfeit pensions should be vested in a superior military authority acting with the concurrence of a specified civil authority,

preferably the local Government (paragraph 32).

The recommendations are under consideration and a further sumouncement will be made in due course.

XXI. Claims which have been rejected should be re-examined in the light of any changes now decided on (patagraph 34).

This recommendation is accepted, but Government must make it clear that Veir acceptance of the various recommendations of the Committee does not mean that all pension claims that have been rejected in the past will now automatically be re-opened. It is most important, in the interests of the ex-soldier classes themselves, that the scope of the orders now issued should be clearly understood and that false hopes should not be aroused. It would be impossible for the Government themselves to examine all rejected claims. They must therefore leave it to individuals to bring forward their cases for reconsideration in the light of the decisions now reached and they have decided to allow a period of two years from the date of these orders during which they will be allowed to do so.

Claims must all be submitted through the prescribed official channel and will fall naturally into two classes—

- I. Those in which an appeal has not already been made, and
- II. Those in which an appeal has been made and has been rejected.

Claims falling in Category I should state clearly and with as much precision as possible—

- (a) the date of the original claim;
- (b) the authority to whom it was made;
  - (c) the purport and date of the order received on the claim, together with a statement wherever possible of the grounds on which it was rejected.
  - (d) the reasons why the order was accepted without protest;
  - (e) a statement of the grounds on which a re-consideration of the claim is now asked for with specific reference to one or more of the recommendations of the Committee now accepted by the Government.

Claims falling in Category II should contain the clearest possible information on the following points:-

- (a) the date of the original claims;
- (b) the authority to whom it was made ;
- (c) the date and purport of the order received on the claim together with a statement wherever possible of the grounds on which it was rejected;
  - (d) the date of the appeal made;
  - (e) the authority to whom it was made and the grounds on which it was based:

- (f) the date and purport of the orders received on the appeal together yith a statement wherever possible of the grounds on which it was rejected;
- (g) a reference to the particular recommendation now accepted by Government on which a claim for re-consideration is based and a clear explanation of the facts to show how the previous orders were inconsistent with the orders now issued.

#### Nore

For the purposes of (g), it will be necessary to prove one or more of the following facts:—

- (i) that a clear statement of the grounds on which the original claim andlor the appeal was rejected had not been furnished to the applicant;
- (ii) that attributability had not been conceded, in spite of the fact that the disability had been shown to have been actually contracted on field or foreign service during the Great War and there was no evidence to rebut the presumption that it was attributable to military service;
- (iii) that special reasons exist why arrears of pensions should be granted for a longer period than that actually allowed;
- (iv) that a pension had been refused in respect of the post-war manifestation of a disability in spite of the fact that a clear connection had been proved between the manifestation and its origin in field or foreign service;
- (v) that it would have been more favourable to the applicant to have had his disability assessed under the degree method and at the rates actually in force at the time of his enlistment, instead of under the percentage method and at the rates in force under the 1922 rules:
- (vi) that, if a pension had been withheld on the ground that the claimant refused to undergo an operation, there were ref son-able grounds for his refusal;
- (vii) that records had been produced to show that the claimant had been discharged on medical grounds or had been treated in a hospital during the war for the disability from which he was suffering when he made the claim or for something that could be logically connected with that disability and that Govesiment had not discharged the onus of proving that he should not receive a pension or succeeded in shifting the burden of proof on to the claimant;
- (viii) that the rejection of the claim was based on the absence of records which under rule should be permanently retained—viz;
  - (ir) that the claim for a pension in respect of re-employed service had been rejected on the ground that his service had been unsatisfactory but in the absence of any direct evidence to that effect.

Claims and petitions that do not comply strictly with these requirements will be liable to immediate rejection. Claims that do comply with these requirements will receive careful consideration and will be disposed of as quickly as possible.

XXII. The decisions of Government should be brought to the notice of the classes concerned; cernacular copies of the Report of extracts therefrom, with the orders of Government thereon, should be distributed among all District Soldiers' Boards and the Revenue Officials.

The recommendation is accepted. The Fauji Akhbar, which is issued in the vernacular, will be used to ensure a full distribution of these orders; and they will also be communicated to the Press, to District Soldiers' Boards and to local Governments in English.

# COMMONWEALTH FUND SERVICE FELLOWSHIPS.

### MRMORANDUM 1934.

### I.-Purpose of the Pellowships.

The Commonwealth Fund of New York, a philanthropic foundation existing since 1918 and Supported by gifts from the late Mrs. Stephen V. Harkness, has established for British subjects a number of Fellowships tenable at American Universities. In creating these Commonwealth Fund Fellowships the Directors of the Fund have been impelled by a belief in the value of international opportunities for education and travel, and by a conviction that mutual amity and understanding between Great Britain and the United States will thereby be promoted.

It has been decided to offer not more than five of these Fellowships in 1934 to persons holding appointments overseas under the British Government, the Government of a British Dominion, Colony, Protectorate, or Mandated Territory. The actual number of Service Fellows to be appointed in 1934 will be determined by the Committee of Award.

#### II .- Qualifications of Candidates.

In the selection of candidates for nomination primary consideration is given to intellectual ability, but account is also taken of personality, character, health, and unitative. Candidates must submit a definite scheme of research work or advanced study to be carried out during their residence in the United States, and must produce evidence of their capacity to pursue it with advantage.

### III .- Conditions of Appointment.

Candidates must be of British descent; they may be single or married, but must not be more than 35 years of age on September 1 of the year of sward.

As normally such candidates will hold an appointment in Government Service overseas they will not be required to show a domicile in the British Isles. It should be explained that neither probationers awaiting final appointment to Government Service, nor persons employed by but not officially on the cadre of a Government Service will be regarded as qualified for these Fellowships

The Committee will consider only those candidates who will, if appointed, continue to be carried on the cadre of a Government Service within the British Empire during the tenure of their Fellowships. A candidate is further required to give an undertaking that he will complete the tenure of his Fellowship and that he will the return to Government Service in some part of the British Empire for a period of not less than two years

An interciew with the Committee of Award in London will not be required, but arrangements will be made for medical examination in the region from which the candidate applies, and all expenses connected therewith will be borne by the Commonwealth Fund.

#### IV.—Emoluments.

There is no fixed stipend, but it is estimated that the cost to the Commonwealth Fund of each Fellowship is approximately \$3,000 pc annum: Each Fellowship includes provision for :-

- (a) An equipment allowance of \$200, and a travel allowance from the country in which the Fellow is serving to the United States and return.
  - (b) Tuition, laboratory fees, etc.
- (c) \$150 a month, paid quarterly; for living expenses during the tenure of the Fellowship, from the date of leaving the country in which the Fellow is serving. An advance of an month's living allowance may be made to an appointee.
- (d) Allowance for travelling while in the United States on tour approved by the Commonwealth Fund.

The living allowance of \$150 is calculated to meet the needs of 1 single man. An additional allowance at the rate of \$50 a month, with some increased provision for summer travel in the United States, is made for a married l'ellow accompanied by his wife. The Fund cannot, however, accept any further responsibility for the necessary additional expenses incurred by a married Fellow. A married Fellow is not at liberty to bring his children to the United States during the term of his Fellowship

A Commonwealth Fund Fellowship is not tenable with a Fellowship or Scholarship from any other Foundation established for a similar put pose in the United States. Candidates may however, be applicants for Fellowships offered by such Foundations provided they do not accept more than one appointment.

### V .- Conditions of Tenure.

The Committee wish to emphasize one point in connection with the Service Fellowships, Applications have been forwarded in the past by some Governments from officers of quite junior standing who do not appear to be equipped either with the special abilities or the experience which are essential if the intensive investigation of a problem is to be undertaken successfully. In selecting candidates for nomination the Committee require to be satisfied that the proposed scheme of work and travel relates to a problem which is exercising the Government under whom the applicant is serving, that the problem can be investigated with special ndvantage in the United States, and that the candidate is sufficiently expert to proceed immediately to advanced study of the subject. Application from candidates who desire only some elementary grounding, or to carry an academic course a stage further, should not be promoted.

Speaking generally, no limitation is imposed on the subject of study to be undertaken by the Pellow during the tenure of the Fellowship. In the particular case of candidates in Medicine, however, while research in the scientific aspects of Medicine will be regarded as within the scheme, purely clinical studies are excluded.

The Commonwealth Fund Fellowships are normally tenable in the following universities, which were members of the Association of American Universities on 1st January, 1933 :--

### Summary Report.

The Committee think that it may be of some interest and guidance to inversors, Heads of Departments, and others concerned in promoting the pplications of candidates, and to prospective candidates themselves, to eccive the following summary report of the operation of the Commorcialth Service Fellowship scheme in the light of the experience gained ince its inception fire years ago.

Dir-t, in regard to the appointments to Service Fellowships made in Sixty-four applications were received from officers employed under the Governments of Australia, New South Wales, Victoria, British Columbia, New Zealand, The Union of South Africa, India, Ceylon, and Southern Rhodesia respectively. The subjects of study offered included Agriculture, Business Administration, Economics, Education, Engineering, Forstry, Geology, Law, Medicine, and Political Science. Three Fellows were appointed from New Zealand, India and Southern Rhodesia.

In addition there are three Fellows already holding Service Fellows in the United States from South Africa, India, and Ceylon, who are studying. Ecotomics, Entomology, and Torostry. The Committee have received uniformly satisfactory reports on these Fellows from the Universities and other Institutions to which they are attached, and the Officers of the Fund in New Work I we supersed to your state of the fund in New Work I we supersed to your state the high intellectual and personal standard to the Commonwealth Fund by their Service Clows in other actgories.

show that their expectations as to the value of a period of study and travel in the United States have been fulfilled, and express keen appreciation of the care and trouble taken on their behalf both by the representatives of the Fund and by the University or other Authorities. There seems good reason to hope that the Governments which have seconded officers to undertake the tenure of these Fellowships will gain advantage from the scheme in the enhanced efficiency of those officers on their return.

WALTER BUCHANAN-RIDDELL,
for the Committee.

C. and consequent loss to Government on their disposal. Steps must be taken to calculate such estimates of requirement as accurately as possible.
